

Sitemap Document

Every route in Raj Raani Collections — 32 in total, trimmed down from a much longer first draft by merging anything that differed only by a filter, a tab, or a modal.

Brand	Raj Raani Collections
Total routes	32 (17 storefront + 4 legal + 8 admin)
Companion to	Lehenga Commerce Blueprint

The rule this sitemap follows

A new route exists only when the content or the underlying data is genuinely different from every other route. New Arrivals, Best Sellers, Sale and Search all show the same product grid with a different filter — they share /shop. Six order-status pages in admin became one page with a filter. The result is 32 routes doing the work of a much longer list, each one earning its place.

Storefront — 17 routes

ROUTE	PAGE	ABSORBS
/	Home	—
/shop	Catalog — filters, sort, search	New Arrivals, Best Sellers, Sale, Collections, Search — all query params on one page
/category/[slug]	Dynamic category, incl. Custom / Made-to-Measure	Custom Lehengas — a category with an enquiry section, not its own route
/product/[slug]	Product detail	Size guide and reviews — tabs on the same page
/cart · /wishlist	Cart, wishlist	—
/checkout	Address, delivery method, payment — one page	Address step, payment step, failed-payment screen — handled inline
/checkout/success	Order confirmation	—
/track-order	Guest order lookup + live tracking	Separate order-detail and tracking routes
/about	Brand story	Our Story, Craftsmanship — sections on one page
/contact	Contact + WhatsApp CTA	WhatsApp gets a button everywhere, not its own route
/faq	Sizing, delivery, returns, custom orders	General Size Guide — folded in as a section
/login · /register	Auth	OTP verification is a step inside these
/forgot-password	Request + reset, same page	Reset Password — same route, driven by the token
/account	Profile, order shortcuts, settings	Dashboard, Profile, Settings — one page, sectioned
/account/orders · /[id]	Order history + detail	—
/account/addresses	Saved addresses	—

04

Legal — 4 routes

ROUTE	PAGE	ABSORBS
/terms	Terms & Conditions	—

ROUTE	PAGE	ABSORBS
/privacy	Privacy Policy	Cookie Policy — one section, not a separate page
/shipping-policy	Shipping & delivery, India only	The separate "Shipping Information" page
/refund-policy	Cancellation, return & refund	The separate "Returns" support page

The full drafted text for all four lives in the companion **Security Rules & Compliance Document**.

05

Admin — /admin, role-gated — 8 routes

ROUTE	PAGE	ABSORBS
/admin	Dashboard — orders, low stock, revenue	—
/admin/products · /new · /[id]	Full product editor	Image-manager and variant-manager routes — tabs inside the editor
/admin/inventory	Spreadsheet-style stock & price table	—
/admin/categories	List, add/edit as a modal	Separate add-category and edit-category routes
/admin/orders · /[id]	Order queue with status filter tabs	/pending, /processing, /shipped, /delivered, /cancelled, /returns
/admin/customers · /[id]	Customer list + detail, orders as a tab	Separate customer-orders route
/admin/assistant	Conversation log + settings, tabbed	Separate settings and conversations routes
/admin/settings	Store, delivery, payment, notifications, banner	Six settings sub-pages, a separate banner manager, a users/roles page

Admin signs in through the same /login as customers — the account just carries the admin claim — so there is no separate admin login, password-recovery or verify screen.

06

Deferred on purpose

A lookbook, a Journal/blog, product comparison, appointment booking and a customer-reviews system are all reasonable ideas — and each is an ongoing content or engineering commitment. None block launch, and each is a clean addition later precisely because the category and product model underneath does not change when they are added.

System routes, not pages

/api/webhooks/razorpay, /api/webhooks/shiprocket, /api/assistant, /sitemap.xml, /robots.txt, /manifest.webmanifest, and a custom 404 — required for a production site but never linked in navigation.
